

CABIN AIR FILTERS

Premium Guard Heavy Duty Cabin Filters are designed to keep dirt, dust, mold, mildew, pollen and other debris (leaves, insects, etc.) from entering the passenger compartment through the heating, A/C and defrosting systems.

- We have maximized the filtration area in our HD cabin filters without affecting the free-flow of air into the cabin
- HD Cabin Air Filters install smoothly with easy-to-follow product replacement instructions inside each Premium Guard Cabin Air Filter box. Installation only takes a few minutes in most trucks
- A clean cabin air filter helps to protect the heating and A/C systems
- Seasonal replacement recommended

Empowered with activated charcoal to eliminate odors and harmful gases resulting from mold build-up.

Designed to retain virtually all pollen and unwanted particles.
