

PUREFLOW
Breathe Better Air

CABIN AIR FILTERS

Powerful 4-stage
filtration process for
the cleanest cabin
air possible

Obstructs 99% of all
airborne contaminants,
protecting passenger's
health

Neutralizes odors
while providing
a healthy cabin
atmosphere

1

Particulate Filter captures and eliminates particulate matter like dust and pollen while allowing high-flow and high capacity.

2+3

Activated Charcoal + Baking Soda traps harmful gases like carbon monoxide, and sulfur dioxide while absorbing bad odors.

4

Advanced Filtration Technology reduces biofouling by suppressing the growth of algae, mold, mildew, fungi, and bacteria on the filter.
