

## TRANSMISSION FILTER KITS

### COMPREHENSIVE COVERAGE FOR MODERN TRANSMISSIONS

Automatic transmissions need solid protection for optimum performance and a long, trouble-free life.

#### Original Equipment Quality & Protection

Premium Guard Transmission Filter Kits are engineered to meet rigorous material and manufacturing standards, ensuring a precise fit and dependable, OE-level performance with every service.

#### Complete kit for easy installation

Premium Guard delivers fully packaged transmission filter kits that include both the filter and pan gasket. Each gasket is made from high-quality NBR rubber and features fitted screw holes—often referred to as a “third hand”—to make installation faster and easier.
